KIDS NETWORK

Kids Network is a project that aims to introduce children to the IT sphere, meanwhile providing them with useful skills.

The project includes visiting IT companies (such as Tumo, PicsArt, eworld), to see their work and working tips as well as meetings and discussions with successful people in that sphere. Children listen to success stories, give their questions and get advice. Visits to museums and cultural places are also being organized.

The first stage of the project took place on 17, 18 January. 15 children from Tatev and Svarants villages, Syunik region, got the opportunity to get acquainted with IT, visited cultural centers and museums.

REGIONS' POWER

The goal of the program is to make alternative education more accessible, teach children how to use the online platform correctly, and be more flexible and innovative.

Within the framework of the project, children get different knowledge, share their experience through teaching each other, organize webinars, get acquainted with the mechanisms of the online platform and learn to work on different programs.

FOR YOU, SOLDIER

The initiative "For you, soldier" was launched on September 29, during the war. The goal was to provide assistance to border soldiers, families affected by the war, and individuals. As a result, more than 3,000 families displaced from Artsakh received assistance (food, clothing, hygiene items), and soldiers (sleeping bags, binoculars).

On November 30, a fundraiser was launched, which raised \$ 6,377. As a result, 15 families from Artsakh living in Metsamor were able to live in more comfortable living conditions.

PRESENT A NEW YEAR

53 children who were displaced from Artsakh and lived in the city of Metsamor, on the eve of the New Year, wrote letters of wishes, which were published on our page and implemented by voluntary "Santa Clauses".

A New Year's event was also organized, during which the children received their gifts, had fun and continued to believe in the New Year's fairy tale.
